

EXPLORERS

Attending the Shelterbox Scavenger Hunt is a great way to fulfil many badge requirements for a number of different badges. If your Explorers take part in the bases during the event we envision they will cover the following badge criteria:

The **Fundraising Activity Badge** is a great badge to achieve in aid of Shelterbox, why not set your Explorers the challenge of raising enough to buy one Shelterbox before the event in May? Throughout the event we will explore a number of areas which are pertinent within the **Global Issues Activity Badge**, what better way to start your work towards this badge than with this event? The Scavenger Hunt is an International themed event celebrating the work that Shelterbox does all around the globe, this covers part 2 (attend an international themed event) of the **International Activity Badge**.

The Shelterbox Scavenger Hunt is a great opportunity for Explorers to take lead and organise their own participation in the event. Why not challenge them to make their own way to the event to public transport, their organisation counts towards the **Leadership Activity Badge**! The event is also a great way to engage your Scouts with the **Marketing and Public Relations Activity Badge**, why not get your Scouts to produce media which could be used internally in Scouting about their experience of this event or externally, such as through a press release which could even feature in a local newspaper?

The Shelterbox Scavenger Hunt can also be linked with progress towards achieving the **Platinum, Diamond or Queen's Scout Award**.
